POYNTERS COACHES FUEL SURCHARGE

Due to the economic climate and fuel crisis we currently face, unfortunately we feel there is now no other option as a company to introduce a fuel surcharge on all bookings with immediate effect.

The charged amount will be weekly updated to reflect the current price we are receiving.

Our prices are published in line with our weekly notification from UK Fuels
and a copy of the email can be passed on request.

Our base line fuel rate of £1.01 per litre is calculated on our average purchase price for our bulk fuel purchases from 2018, 2019 and 2021. We have allowed a 20% increase on the base rate before the escalator applies. Let's hope that rates start to drop down and the surcharge falls off in the very near future.

The surcharge will be displayed on our website and will be updated weekly for the foreseeable future as we expect more major increases over the coming days/weeks. The percentage will be advised on a Friday for the following week from Tuesday 00:01am through to the Monday at midnight. The charge will be applicable to all private hire, the rate will be invoiced based on the Price per liter and percentage shown on the table above and payment will need to be received before the hire commences.

For Account customers, this will be shown separate when invoiced.

The fuel prices are taken from our UK FUELS account (validated email available upon request)
